Number of approved professorships	40
Subject groups	Law, Economics and Social Sciences; Mathematics, Natural Sciences; Engineering
Project term	1 December 2017 until 31 October 2028

Brief information

The Technical University of Munich (TUM) has started a new career system for its faculty staff, defined in the statute “TUM Faculty Recruitment and Career System” of 1 July 2012. The aim of the new system is to hire excellent academic talents as independent *Tenure-Track Assistant Professor (W2)* as early as possible, to support these professors along their career path and to promote them to *Associate Professor (W3, tenured)* after six years in case of positive evaluation. The career path also includes the opportunity for a promotion to *Full Professor* with improved conditions concerning remuneration and resources. With this career system TUM offers excellent conditions for next-generation faculty staff to develop their careers at TUM.
